

GIANMARCO SANZONE

Software Developer

+609-305-3884

[LinkedIn](#)

SanzoneGianmarco@gmail.com

Boca Raton, Florida

PROFESSIONAL SUMMARY

Software Engineer with experience developing object-oriented applications in C++ and C#. Skilled in designing modular systems, networking solutions, AI systems, and graphics programming. Passionate about solving complex technical problems and building performant software.

TECHNICAL SKILLS

LANGUAGES:

- C++
- C#
- LUA
- PYTHON
- SQL

TECHNOLOGIES

- .NET
- OPENGGL
- UNITY
- UNREAL ENGINE
- PHOTON

SOFTWARE ENGINEERING

- OBJECT-ORIENTED PROGRAMMING
- DATA STRUCTURES
- ALGORITHMS
- DESIGN PATTERNS
- DEBUGGING

TOOLS

- GIT
- PERFORCE
- VISUAL STUDIO

RELEVANT COURSEWORK

- OPERATING SYSTEMS
- COMPUTER GRAPHICS
- ARTIFICIAL INTELLIGENCE
- SOFTWARE ENGINEERING

SOFTWARE PROJECTS

Multiplayer Action Game (Unity, C#, Photon) Gameplay Systems Developer

Aug. 2023 - Nov. 2023

- Designed modular object-oriented systems for combat, inventory, and resource-management.
- Integrated Photon networking to support synchronized multiplayer gameplay using a client-server architecture
- Developed AI behavior
- Optimized systems through debugging and iterative testing.

Custom Rendering Engine (OpenGL, C++) Graphics Programmer

Apr. 2023

- Developed a custom rendering engine in C++ using OpenGL.
- Implemented matrix transformations, camera systems, and dynamic lighting.
- Applied linear algebra for 3D transformations and projection.

Single Player Survival Game (Unity, C#) Software Engineer

Oct. 2022- Nov. 2022

- Designed and implemented object-oriented software systems for AI behavior, combat, and currency.
- Developed AI logic featuring player tracking and dynamic target prioritization.
- Debugged and optimized systems through iterative and systematic testing.
